#### **1) Infrastructure Development.**

It is essential to arrange clean drinking water and furniture in order to provide basic facilities to the officers/staff working in offices. Providing of Fire Watchers, We need fire watchers for the protection of forests from forest fires because early detection and rapid response are critical to minimizing damage.

We need officer and staff quarters in forest areas for several practical, operational, and safety-related reasons. Forest officers and staff need to live close to the forest to effectively monitor and manage it. Quick access allows them to respond immediately to emergencies like forest fires, illegal logging, or poaching.
